A Horse of Course should go in the 4,100 sq. ft. 4-stall stable with a tack room and an indoor arena with 44.99 acres. The story and a half, 3 BR, 1.5-bath home surrounded by a fenced yard blends into the landscape. You'll love the bright living room with access to the open deck and beautiful views of the pasture and woods. The covered porch off the kitchen is sure to please. The sellers have made many updates to this home. The 28x56 detached garage has an insulated and heated workshop with a high-efficiency air filtration system. Truly a place to have a hobby farm, the extra outbuildings provide a chicken coop and extra storage for equipment. There is water and electricity available in the stable and other outbuildings. Make this the place you will hang your spurs and your stable sign.
